

MVC e MVT

Diferença entre MTV e MVC

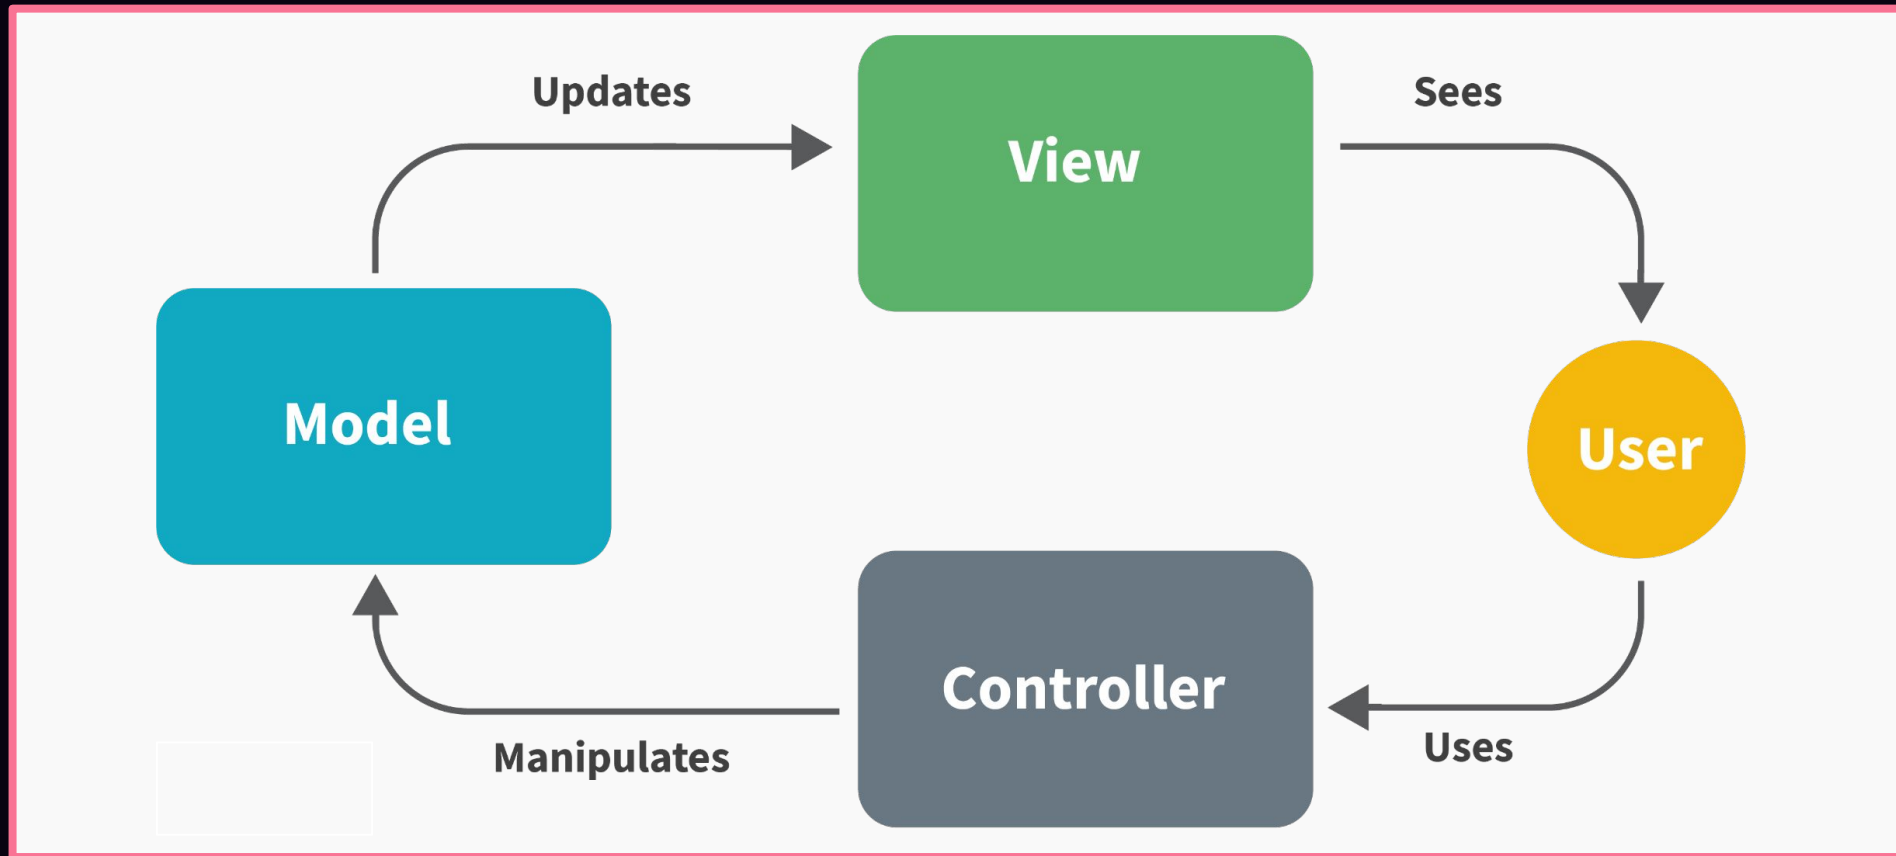

MVT

Relembrando...

MVC

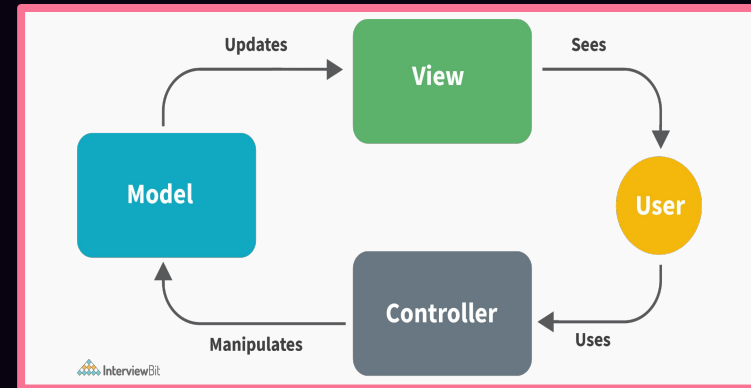

MTV

django

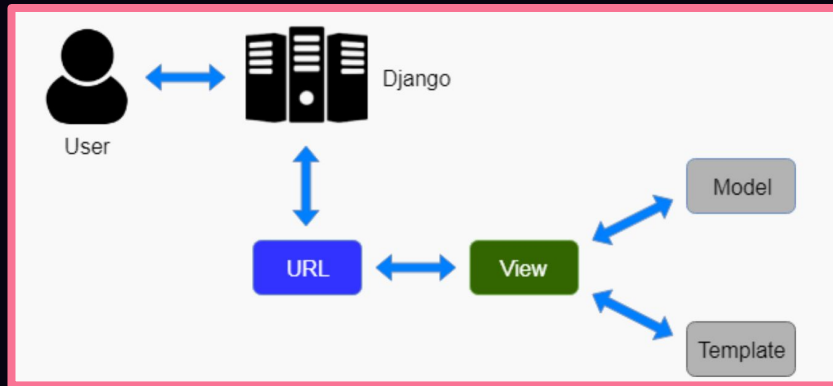

MVC

Laravel

MTV

A camada de lógica é dividida em MVT

MVC

A camada de lógica é dividida em MVC

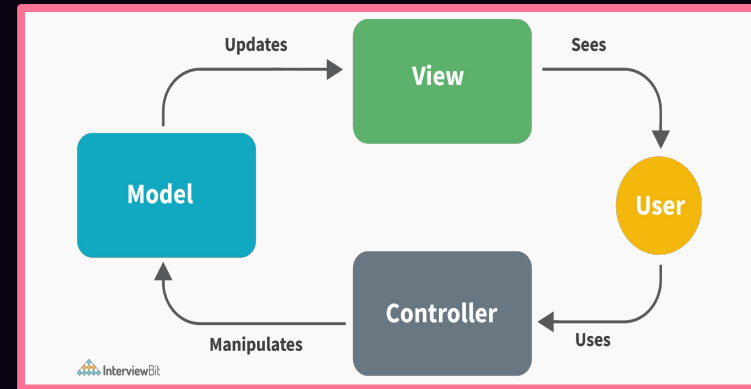

MTV

Não tem um controller e a lógica de controle é tratada principalmente pela camada View

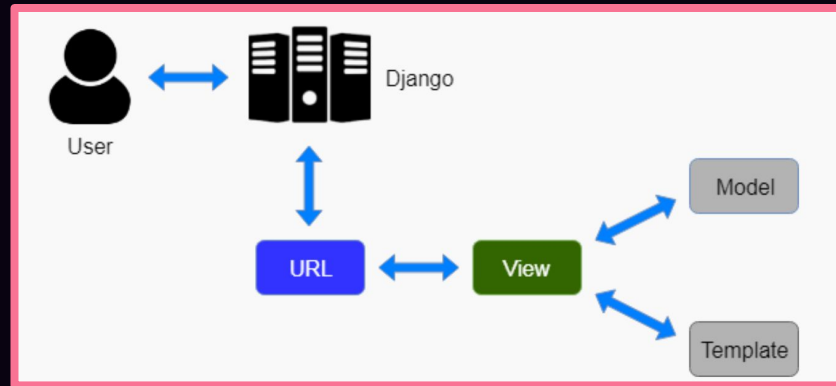

MVC

O Controller é o responsável principal pelas decisões e interações

MTV

View é responsável por renderizar a interface do usuário

MVC

View é responsável por renderizar a interface do usuário
